Subject: [akfarmtoschool] Alaska Farm to School

I am currently involved with both the Alaska School Nutrition Association Conference in Anchorage as well as the Alaska Forum on the Environment this week. Well, I won't have a newsletter for you all this week. Here are a couple of fun things going on:

March 1-3, 2018 will be a soils and production class in King Salmon. I am teaching this course for the UAF BBC King Salmon campus to support producers in the Bristol Bay region. Let me know if you are interested!!

Get started with some flowers, celery, and *brassicas* (broccoli, cauliflower, etc.) for your summer gardens - starting them now will get you awesome plants to transplant outside in a couple of months!!

Be well and keep doing all the great things you do!!

Jodie

Sent from the back of my turtle speeding along on the bore tide of technology.
